1. The drawings filed 9/23/2004 have been approved.

***Claim Rejections - 35 USC § 103***

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1-7,22-24 are rejected under 35 U.S.C. 103(a) as being unpatentable over Neuberger (4158885) in view of Pederson et al (2002/0105432).

Neuberger shows various arrangements of colored lights and symbols to guide a plane to be refueled. Pederson et al teaches that LED lights can be used in many ways to create displays of color, symbols, words, numbers to be used to inform and guide the operators of vehicles (including airplanes). It would have been obvious to one having ordinary skill in the art at the time the invention was made to use LED displays in Neuberger as taught by Pederson et al since it can be more informative and communicative.

**It is noted that a mere size perception with change in distance provides a positional feedback from one or plural light patterns.**

1. Claims 9-21 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
2. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
